DataWind Partners with Zoho to Offer a Mobile Office Environment on the PocketSurfer2 - The World's Fastest Handheld Mobile Internet Device
02/11/2007 - 10:00

DataWind, a leading provider of wireless web access products and services, today announced a partnership with Zoho, the web leader in online productivity applications. The Zoho partnership offers PocketSurfer2 users with the ability to work from anywhere, taking advantage of a comprehensive suite of collaborative applications including spreadsheets and documents, all of which can be saved and shared online.

"Expensive software on desktop computers is a thing of the past. Zoho represents the future with its suite of online productivity tools; products like the PocketSurfer2 bring the Internet to the user wherever they may be." said Ian Wenig, Zoho Director of Business Development. "We are very excited to have 'Zoho in your pocket' available on the PocketSurfer2, it really shows off the technology and the capability of collaborative applications in real work environments."

Suneet Tuli, CEO of DataWind added: "Thanks to DataWind's patented acceleration technology, you'll be flying around the web just as you would at your desk. Our goal is to deliver the mobile Internet, fast and free, allowing users to be productive, anywhere, any time, adding a great value to this already indispensable tool."

The PocketSurfer2 allows you to browse the web in its original layout. The rich user experience of the PocketSurfer2 offers a real alternative to consumers who are tired of the limited functionality, unfamiliar content and small screens on mobile phones or smartphones yet still want access to their office applications. The PocketSurfer2, an ultra-thin, ultra-portable Internet communications device, delivers the full power and original graphic intensity of the Internet rapidly and wirelessly to the palm of your hand, for free.

For further information on the PocketSurfer2 please visit:
